

WHAT IS A DESIGNATED CITY LANDMARK?

A designated City Landmark may be a structure, site, or district which is officially recognized by the Historic Landmarks Commission and the City Council because of its value or interest of an historic nature.

WHY ARE THEY IMPORTANT?

Each of the over 100, designated City Landmarks in San Jose represents a physical connection with significant persons, activities, or events from our past. In addition to serving as visible reminders of our historical and cultural heritage, designated City Landmarks contribute to San Jose's unique character and sense of place. This uniqueness strengthens the local economy by preserving property values, attracting tourists, and encouraging investment in San Jose.

HOW IS A DESIGNATED CITY LANDMARK PROPOSED?

Any historic property may be nominated for designation as a City Landmark by either the City Council or the Historic Landmarks Commission. A property owner may also apply for nomination, and consideration by the Historic Landmarks Commission.

To apply for a City Landmark Nomination, the following information must be submitted to the

Department of Planning, Building and Code Enforcement:

- Assessor's Parcel Number (APN)
- State Historic Inventory Form
- Historic Landmark Nomination Form
- Photographs of the historic resource

WHAT IS THE PROCESS FOR DESIGNATING A CITY LANDMARK?

After a designated City Landmark is nominated, the Historic Landmarks Commission recommends that the City Council begin the process for designation of a City Landmark. The City Council then (1) formally initiates proceedings by setting a public hearing date to consider the proposed City Landmark, and (2) refers the matter back to the Historic Landmarks Commission for recommendation.

The Commission then holds a public hearing to consider the proposed City Landmark. They also forward a recommendation to the City Council. Finally, the City Council holds a public hearing to approve, approve with modifications, or disapprove the designation of the City Landmark.

WHAT IS THE DECISION TO DESIGNATE A CITY LANDMARK BASED ON?

A designated City Landmark has special historical, architectural, cultural, aesthetic, or engineering value of a historic nature. In making a recommen-

dation to the City Council on a proposed City Landmark, the Historic Landmarks Commission may consider many relevant factors such as:

- Site of a significant historical event
- Identification with people who significantly contributed to local culture or history
- Identification with a master builder or architect
- Example of a unique architectural or engineering design
- Representative of an aspect of City history such as agriculture, architecture, commerce, or industry during a specific era from 1777 to the present.

HOW LONG DOES THE PROCESS TAKE?

The nomination period may take two or three months. After formal initiation by the City Council, the entire process takes about four months. The City Municipal Code requires both the Historic Landmarks Commission and the City Council to hold public hearings on the proposed City Landmark within 120 days of formal initiation by the City Council.
